GOSPEL MEDITATION
12th Sunday in Ordinary Time

Right now, you and I are only worried about one of only two things: wind or water. Bear with me. This week we hear the account of the terrified disciples waking Jesus in a sea-storm. He chastises them for their lack of faith, and then, **“rebuking the wind, he said to the sea, ‘Quiet, be still!’”** He rebukes the wind and stills the water. In the Bible wind and water represent the two most fundamental poles of our experience of creation. Wind means heaven, spirit, that which gives identity, unity, order, light. Water stands for earth, variation, potential, that which can be drawn into identity, darkness, chaos.

Too much “wind” is when things get way too rigid, abstract and ideological — when we face oppressive leaders and tyrants, when we get addicted to our own way of doing things, when our attention is too narrowly focused on one thing. Too much “water” is excessive novelty, passivity, indifference, and chaos — when our attention is too broadly diffused on many things, when things seem to be crumbling without direction into the dark abyss. We know both terrifying experiences all too well.

The point of the miracle is that God in Christ is the One who brings final cosmic harmony between these two vital but threatening forces. He ultimately does so from the wood of the cross, when he breathes forth the wind of his spirit and pours forth the water from his side to establish a new creation, filled with harmonious peace. When the wind and water are out of control, trust him.

Fr. Paul Aquino SVD will be at **St. Anthony Parish and St. Stanislaus Parish on June 29-30, 2024**

to celebrate Masses and to speak about the many ministries of his religious community, Divine Word Missionaries. They are an international religious community of missionary priests and Brothers serving in 79 countries helping to build chapels, celebrate the sacraments and spread the Word of God in remote mission communities.

Fr. Paul Aquino SVD

Born in the Philippines, Fr. Paul was ordained in 2016 in Chicago. Following his ordination, he was assigned to work at Divine Word College Mission Seminary (DWC) in Epworth, IA as a liturgical musician, spiritual director and formator. He then went to take a Master of Music degree in Vocal Performance at the Catholic University of America in Washington, DC and finished his studies in May 2020. He returned to DWC and now serves as a music instructor and formator.

Nearly 6,000 active Divine Word Missionaries minister in the far corners of the world. They build hospitals to care for the sick and build schools to educate the poor. They teach the hungry to farm. They provide life's necessities—water, food and shelter—in impoverished communities. These priests and Brothers help those neglected and forgotten by society to build a better future. They also foster vibrant Catholic communities of service and faith around the world.

This mission appeal is part of the Missionary Cooperative Program of our Archdiocese of Omaha. Please be generous with your prayers and contribute to the second collection to help support the missionary work of the Divine Word Missionaries. To meet some of the people Divine Word Missionaries help, please read the [stories](https://missionimpact.svdmissions.org/mission-update) at <https://missionimpact.svdmissions.org/mission-update>.

School News:

This week was a bit quieter so I had time to look at our data from this past school year! We take the STAR test K-6th grade. It is the test that all of the schools in the Archdiocese of Omaha take three times a school year (fall, winter, and spring). For math, for the district benchmark, we just missed the top five schools in the Archdiocese with a score of 96.1% of our students reaching that goal. For the state math benchmark, we were #4 in the top five schools for the archdiocese with 94.8% of our students reaching that goal. For reading, for the district benchmark, we were #3 with 91.7% of our students reaching that goal, and just missed the top five for the state benchmark goal with 93.3% of our students reaching that goal.

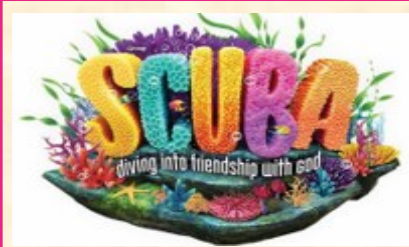

When I looked deeper into the data, 96.1% of our students reached or exceeded their individual goal for math by the end of the school year, and for reading, 85% of our students reached or exceeded their individual goal. Hats off to our teachers and all of our volunteers who helped us reach these goals. Lots of hard work went into helping all of our students.

As always, we still have room to improve. We would love for 100% of our students to reach their individual goals so we will work on finding different strategies to help them. We also have to remember that this is only one tool that we use to see how students are doing.

Blessings,
Mrs. Sokol
